Word Fill

A word fill is a timeless strategy that can be easily differentiated to stretch and support students whilst doing the same task

A word f_____ is a t_____
strategy that can be easily
d_____ to stretch
and s_____ students
whilst doing the same
t_____

A word _____ is a timeless
strategy that can be easily
_____ to stretch
and _____ students
whilst doing the same

A word _____ is a _____
strategy that can be easily
_____ to stretch and
_____ students whilst doing
the same _____

differentiated task support
timeless fill

Get the students to create a word fill for someone else.

For example.

- Students write out a definition for a key term on a mini white board.
- The student erases some of the words. They can choose whether to leave the first letter, provide the words or leave it blank.
- Pass the whiteboard to a partner to fill in the missing parts.
